Step5

GENERAL SAFETY WARNINGS

WORK AREA SAFETY

1. Keep work area clean and well lit. Cluttered or dark areas invite accidents

PERSONAL SAFETY

1. Stay alert, watch what you are doing and use common sense when operating the dolly. Do not use a dolly while you are tired or under the influence of drugs, alcohol or medication. A moment of inattention while operating this dolly may result in serious personal injury.
2. Use personal protective equipment. Always wear eye protection. Protective equipment such as a respiratory mask, non-skid safety shoes and hearing protection used for appropriate conditions will reduce the risk of personal injury.
3. Dress properly. Do not wear loose clothing or jewelry. Keep your hair and clothing away from moving parts. Loose clothes, jewelry or long hair can be caught in moving parts.

TOOL USE AND CARE

1. Do not force the dolly. Use the correct dolly for your application. The correct dolly will do the job better and safer at the rate for which it was designed.
2. Store idle dolly out of the reach of children and do not allow persons unfamiliar with the dolly or these instructions to operate it. The dolly can be dangerous in the hands of untrained users.
3. Maintain dolly. Check for misalignment or binding of moving parts, breakage of parts and any other condition that may affect the dolly's operation. If damaged, have the dolly repaired before use. Many accidents are caused by poorly maintained tools.
4. Use the dolly, accessories, and bits, etc. in accordance with these instructions, taking into account the working conditions and the work to be performed. Use of the tool for operations different from those intended could result in a hazardous situation.
5. Try to apply force on the four wheels as much as possible, rather than concentrating on the middle
