MODEL: BH-8315

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

	Warning-To reduce the risk of injury, user must read instructions manual carefully.
	Compliance is a CE security certification.
	CORRECT DISPOSAL This product is subject to the provision of European Directive 2012/19/EC. The symbol showing a wheeled bin crossed through indicates that the product requires separate refuse collection in the European Union. This applies to the product and all accessories marked with this symbol. Products marked as such may not be discarded with normal domestic waste, but must be taken to a collection point for recycling electrical and electronic devices.
	Warning- For Indoor Use Only
	FCC Information: CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment! This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This product may cause harmful interference. 2) This product must accept any interference received, including interference that may cause undesired operation. WARNING: Changes or modifications to this product not expressly approved by the party responsible for compliance could void the user's authority to operate the product. Note: This product has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules, These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses and can radiate radio frequency

	energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the product off and on, the user is encouraged to try to correct the interference by one or more of the following measures.
--	--

- Reorient or relocate the receiving antenna.
- Increase the distance between the product and receiver.
- Connect the product to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for assistance.

SAFETY INSTRUCTIONS

WARNING:

Before using, please read all instructions. Use the original power cord, and follow the specifications for power connection and switch operation to prevent safety hazards.

When using electronic products, follow basic safety precautions to check for the risks of electric shock, burns, fire, or personal injury, including the following:

1. Be sure to use an outlet that matches the plug.
2. Make sure that the plug is fully inserted into the socket to reduce the risk of short circuit or fire.
3. After use or before cleaning, be sure to unplug the plug in time.
4. Do not use this product at high temperatures.
5. Do not store or use this product outdoors or in direct sunlight.
6. If there is a sudden power failure during use, please set the switch to the "0" position immediately, and unplug the plug to avoid damage to the product when a call comes in.
7. Do not operate the massage chair if the cord is wet or damaged.
8. Do not insert or unplug the plug with wet hands to avoid accidents.
9. When a child, handicapped, or handicapped person is near or using a massage chair, someone must be present to look after him.
10. Only use this product for the purposes described in this manual.
11. Do not use accessories not provided by Momoda.
12. Do not stand on it or jump on the calf rest so as not to cause damage.
13. Please do not try to sit on the armrest or backrest, so as not to tip the massage chair over and cause an accident.
14. Do not go to sleep during the massage.
15. Please keep the massage chair clean and avoid inserting other objects into the gaps of the massage chair
16. Do not move the massage chair directly by pulling the power cord.
17. Before each use, check whether there are abnormal cracks in the flannelette of the backrest of the massage chair.

18. This product is designed for home use only.
19. When you are not sure whether you can use the massage chair, please consult your doctor.
20. In order to avoid discomfort or injury caused by using this massage chair, the following people should consult a physician before using this product: those receiving treatment, with back disease, abnormal or distorted cervical spine.
21. If you feel pain during use, please stop using it immediately. If it is damaged during use, please seek medical attention immediately.
22. Do not massage red, swollen or inflamed skin.
23. This product only provides comfortable massage enjoyment for the family. It is not a professional massage medical device, so it cannot replace professional treatment.
24. It is recommended to use the massage chair for 30 minutes a day, and massage the same part should not exceed 15 minutes, otherwise excessive massage will result in counterproductive effects, and long-term use will cause the massage chair to overheat and shorten the service life of the product.
25. Do not use this product in an environment where gas or oxygen is injected. This product is not suitable for children under 12 years old.
26. Those who are not allowed to use this product: those who are physically, emotionally, or mentally defective, or who lack experience and knowledge. Unless they are supervised or instructed by the person responsible for their safety regarding the use of the product.
27. Children should be supervised to ensure that they do not play with the massage chair.
28. If the power cord is damaged, it must be replaced with a special cord or a special component purchased from its manufacturer or maintenance department.
29. The surface of the appliance heats up, so people who are not sensitive to heat must pay attention to it.
30. Do not use this machine under a voltage that does not meet the standards of this machine.
31. This product must use a grounded three-core power socket, and there

should be are liable and good grounding device.

32. Damaged leather or cloth covers should be replaced in time. Do not use this machine to avoid personal injury.
33. Do not allow water or moisture to enter the hand controller to avoid control failure.
