ASSEMBLY INSTRUCTIONS

Step1: Position the wall panels. Choose a clear and flat area of wall free of cables and pipework.

Step 2: Mark mounting holes by placing the panel in position and use the pre-drilled holes in the panel to mark the drill locations on the wall.

Step 3:Drill the holes on the wall using an 8mm drill bit. Drill a hole 45mm in depth.

Step 4:Insert the raw plugs into the holes.

Step 5:Place the panel into position on the wall with raw plug ends visible through the holes in the panel. Fasten all screws on the panel, ensuring all screws are secure and do not protrude the surface.

When fixing the cymbal on the panel , please put the long screw into the cymbal,the white foam spacer and the wood block in turn, then use the hexagonal wrench to assist in fixing the cymbal.

CARE & MAINTENANCE

Inspect the wall panels before each use.

Be aware of loose or missing parts and screws.
