This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

IMPORTANT

1. IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY

Read these instructions carefully and retain them for future use. If this product is passed to a third party, then these instructions must be included.

When using the product, basic safety precautions should always be followed to reduce the risk of injury including the following:

- Do not let children climb on or play with the garment rack.
- This product must be assembled by competent adults.
- Always use on a firm level ground.
- Do not sit or hang on the product.
- Check to ensure that all components and fixings of this product are secure, do not use if you have any doubts about its fitness for purpose.
- To avoid scratching the floor, assemble the shelving unit on a soft surface such as a carpet.
- Load the unit evenly and place the heaviest items on the lower shelves.

2. CLEANING AND MAINTENANCE:

- To clean, wipe with a soft, slightly moist cloth.
- Never use corrosive detergents, wire brushes, abrasive scourers, metal or sharp utensils to clean the product.

3. Since we don't know how the wires and pipes are routed behind your washer or dryer, we recommend:

- Move the washing machine away first, then assemble the rack according to the instructions, and when it is in the right place, move the washing machine back.
- Or after observing the wires and pipes on the back, assemble the rack directly in the right place according to the steps in the manual.

DANGER Risk of suffocation!

Keep any packaging materials away from children - these materials are a potential source of danger, e.g. suffocation.

IMPORTANT

Location for holding the plastic clips in place.

Plastic clips' arrow shall be pointed up.

Note: There are multiple gaps between two plastic clips assembled onto the poles as shown in the drawing. This is a structural design rather than a quality issue, which aims to bind the shelves firmly onto the poles.

Note: It is kindly advised to lay a thick cloth or a board over the edge of the wire shelf to prevent damage when hitting it with a rubber mallet, make the shelf firmly fastened to the poles.
