Dirt Bike Stand

Model: TD-059-02

Model: TD-059-02

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

Safety Precautions

Warning - To reduce the risk of injury, user must read instructions manual carefully.

- The product complies with relevant standards and regulations. Installation of this device must comply with all applicable regulations, and it should only be operated in well-ventilated areas. Please read the user manual before installing and using this equipment.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children shall not play with the appliance.
- This appliance shall not be used by children. Keep this appliance out of reach of children.
- Please properly keep product. Check whether the product is abnormal before use. If it is abnormal, please stop using it.
- Please use the product according to the intended use, warn of potential injury from misuse.
- The method of fixing stated is not to depend on the use of adhesives since they are not considered to be a reliable fixing means.
- "Installation Restrictions: During the installation process, it is strictly prohibited to strike or twist the product. Otherwise, this may cause the product to crack and the installation position to deform, adversely affecting the vehicle's appearance and safety performance.
- Pre-Installation Requirement: To avoid injury, ensure the vehicle is turned off throughout the entire installation process. Instruction Compliance: Please follow the installation instructions suitable for your specific vehicle model during installation. Incorrect installation may prevent the product from functioning as a protective device, endangering the lives and safety of the driver and passengers.
- Product Validity Note: Product functionality is only guaranteed for properly and fully assembled units.

- General Notice:Read these instructions carefully and retain them for future reference.
- Safety Precautions:When using the product, basic safety precautions should always be followed to reduce the risk of injury, including the following:
 - a.A competent adult must assemble the product.
 - b.Keep children and pets away during assembly; do not allow children to climb on or play with the product.
 - c.Wear protective gloves when installing the product.
 - d.Do not use the product if any parts are missing, damaged, or abraded.
 - e.Do not over-tighten the fasteners (hardware).
 - f.Regularly inspect the product for wear and tear; replace it immediately if damage is detected or parts become detached.
- Electrical Safety Warning: Before installation, ensure the vehicle’s power supply is turned off to avoid the risk of electrical short circuits. Failure to comply with this instruction may result in vehicle damage or personal injury."

Specifications

Model Series	TD-059-02
Maximum Load Capacity (lbs)	1200
Support height (inch)	10-18

Product Parameters

SN	Description	Qty	
1	Bracket main body	1	
2	Kick arm	2	
3	Screw M10×75	2	
4	Lock nut M10	2	
5	Washer d10	4	

ASSEMBLY INSTRUCTIONS

- 1) Install kick arm to stand body with screws.
- 2) Put on the washers and use tools to screw up the nut.

NOTE

It will be much easier to lift up your bike if you set the top plate to 5mm lower than your bike's ground clearance.

CAUTION

- 1) After you set the stand's height, please tighten "Screw lock nut" against "Lifting Shaft".

- 2) This Stand's maximum weight capacity is 1200lbs
- 3) Don't sit on the bike while it is on the stand.
- 4) When released, the kick arm will come up fast. Please be careful that your leg or other body parts do not get caught between the kick arm and top plate or your bike.
- 5) After the motorcycle has been lifted, use "Safety hold hook" to help prevent an unintentional descent.

How to use "Safety hold hook"
