This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

INSTRUCTIONS

Warning-To reduce the risk of injury, user must read instructions manual carefully. The product complies with relevant standards and regulations. Installation of this device must comply with all applicable regulations, and it should only be operated in well-ventilated areas. Please read the user manual before installing and using this equipment.

Children shall not play with the appliance.

Please properly keep product. Check whether the product is abnormal before use. If it is abnormal, please stop using it.

Please use the product according to the intended use, warn of potential injury from misuse.

Warning Tips:

1. During the installation process, it is best to wear gloves to prevent sharp corners on the panel from scratching the palm of the hand.
2. When installing the shower, ensure that all joints are fully tightened to avoid water leakage.
3. When the shower is not in use, please close the switch valve of the shower.
4. Not be liable for any of the following claims : 1. Damage and/or breakdown caused by improper use and/or maintenance; Or any unauthorized Rebuild; including any damage caused by abuse (e.g. falls, drops, etc.) 2. Hire a professional plumber. Not responsible for any damage and/or failure caused by incorrect installation. 3. Damage and/or failure caused by removal after installation or other factors.
5. Damage and/or failure caused by applications beyond the scope of use.
6. Damage and/or failure caused by sand, dust and other impurities
7. Damage and/or failure caused by improper / inadequate maintenance; Rust surface treatment, etc.
8. Damage and/or failure caused by fire, earthquake, flood, lightning and other natural disasters, pollution, harmful gas, salt, abnormal voltage, and other factors.

Installation precautions.

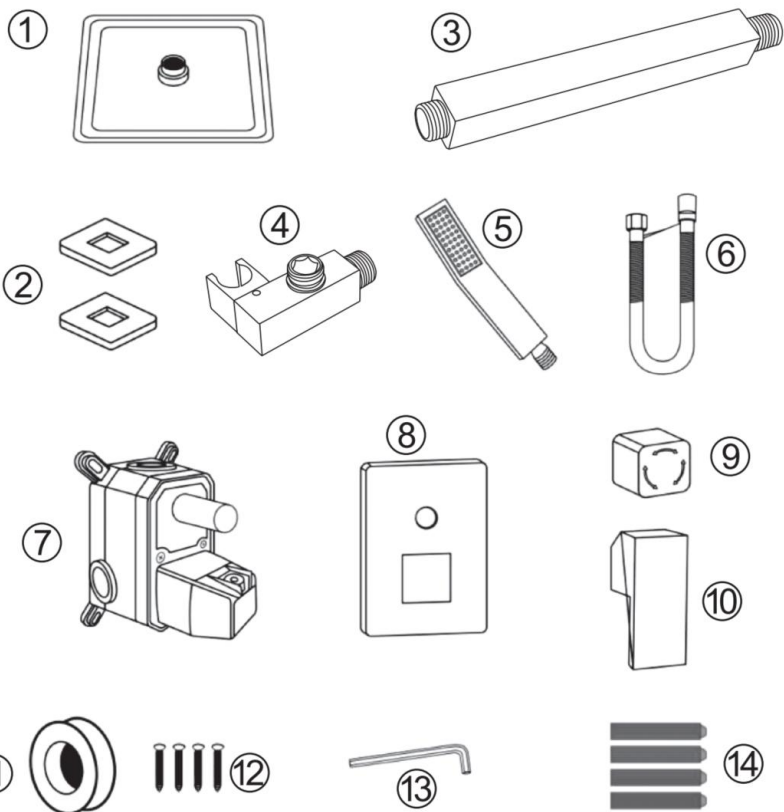

1. Before installing the spool, clean the dirty water, residue, sand, and impurities remaining in the pipe before installing the spool. Do not open the protective cover before installing the spool to avoid impurities
2. Faucets and hot and cold water pipes must be installed correctly. Facing the faucet, connect hot water on the left and cold water on the right
3. Check the installation size. Do not forcibly install the product to avoid damaging the parts. How to Clean a shower head: In order to maintain the external brightness and good performance of the shower, please care for the shower in the following ways:
 - a. Rinse with water only and dry with a soft cotton cloth.
 - b. Place the shower head in a pot and fill the pot with enough white vinegar to cover the shower head. The acid in the vinegar helps dissolve the deposits on the white mineral nozzle. Let the shower head soak in vinegar for 30 minutes. The dirtier the shower head, the longer you'll need to soak it in vinegar.
 - c. Mild liquid and colorless glass cleaner can be used to remove surface dirt and dirt film, not abrasive polish agent
4. Do not use acid detergent, insoluble granular detergent, soap, etc.

Installation steps

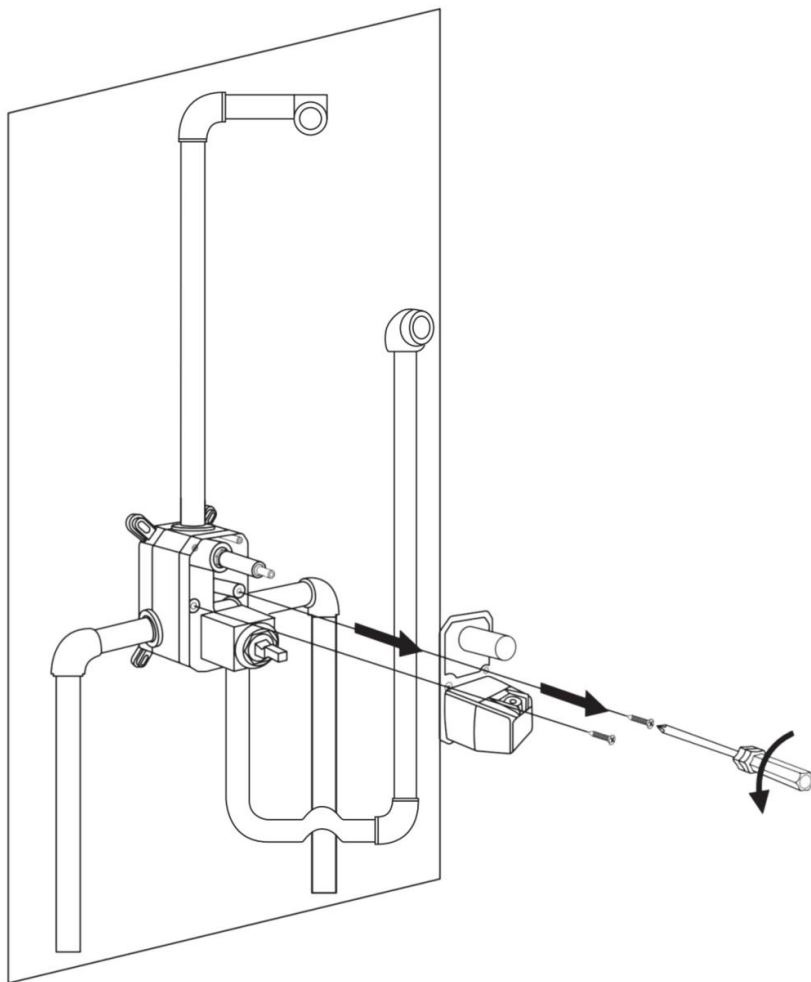

1. Size for reference, please adjust according to your actual space.
2. Connect the cold and hot inlet and outlet pipes.

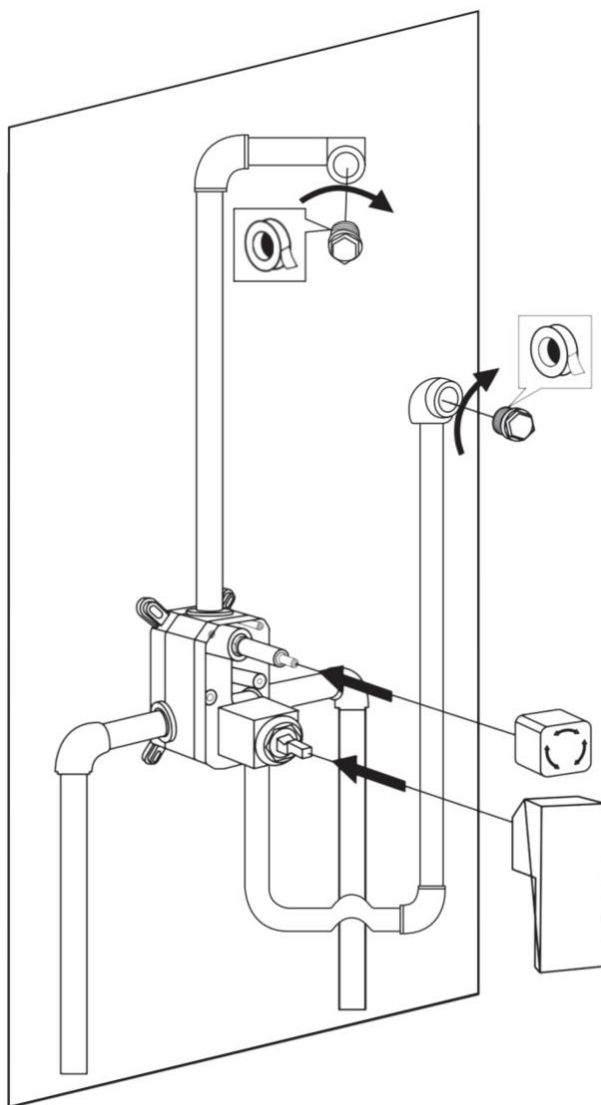

3. Confirm the position of the faucet and install it on the board.

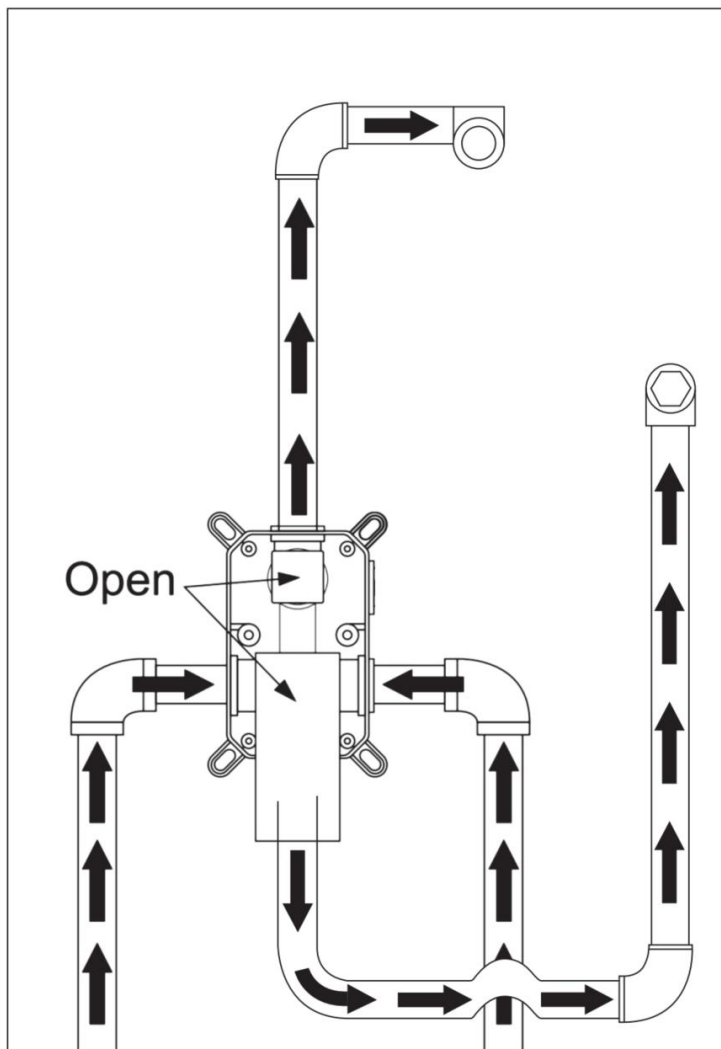

4. Unscrew the screws and remove the protective leaks.

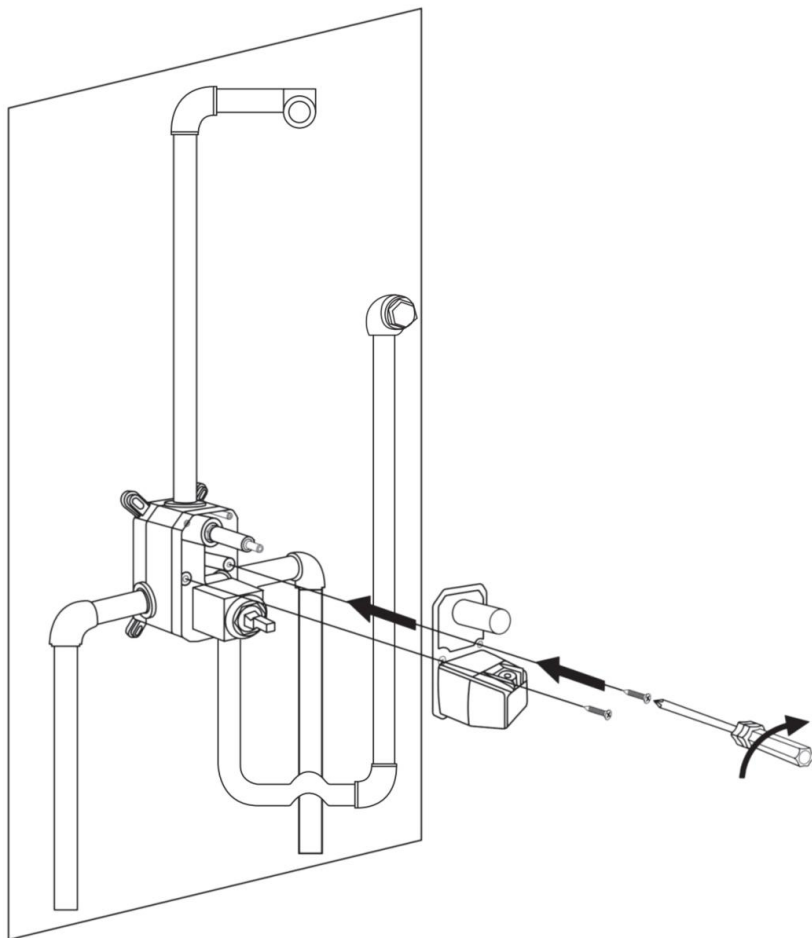

5. Plug the water pipe to check for leakage.

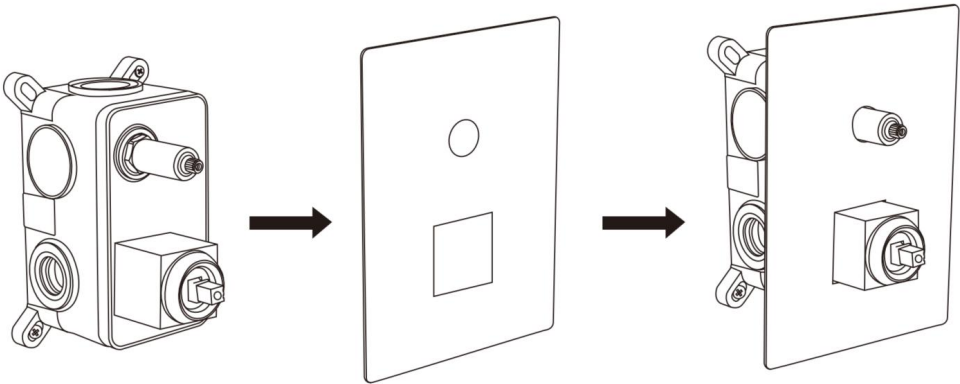

6. Open the valve and adjust the switch of each water channel (hand shower, top spray) to ensure that each interface is watertight.

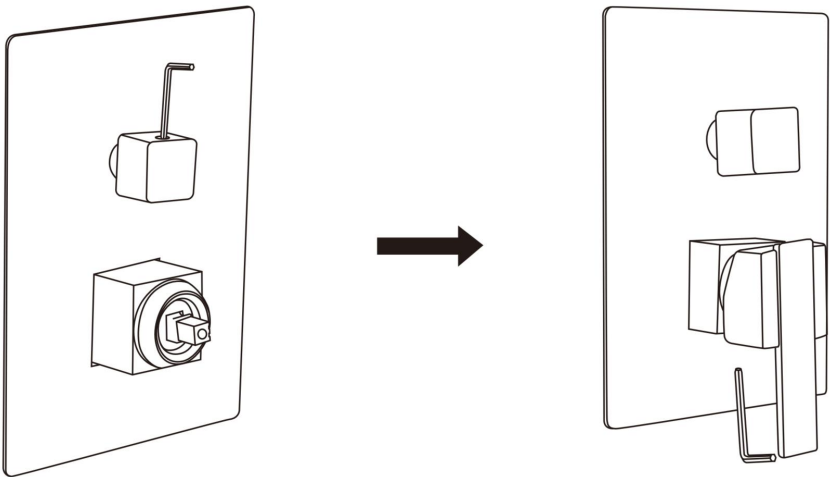

7. Install the protective cover on the valve body, and then start the wall construction.

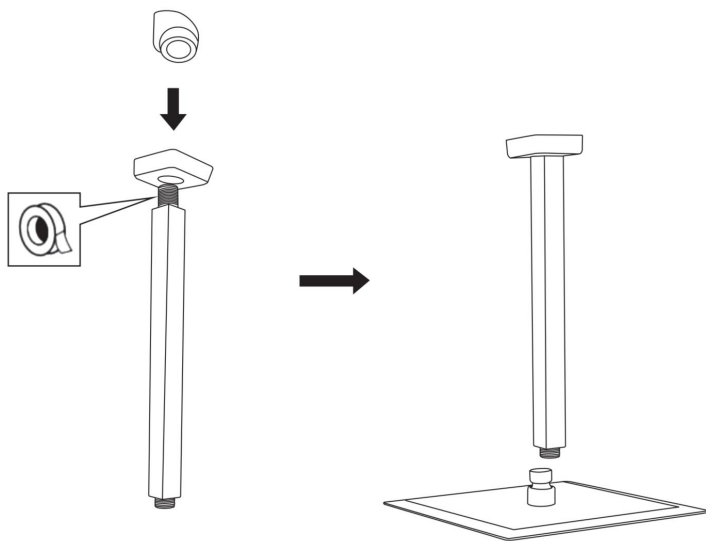

8. After completing the wall construction the protective cover can be removed and the plate cover can be installed on the wall.

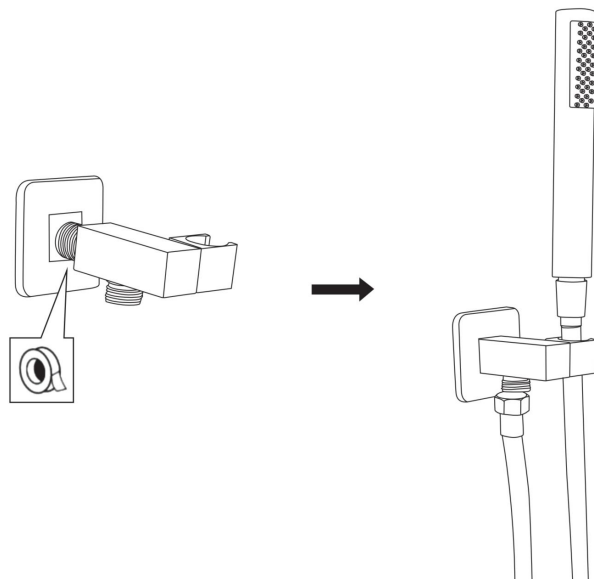

9. Use the hexagon wrench to install the knob and handle.

10. Install the shower arm and shower head.

11. Install the shower bracket and connect the hose

12 . Complete installation.
