VEVOR

Affordable. Reliable. Home Improvement.

**Weighted
digital piano**

MODEL: S-180

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

**FCC Information:**

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment!

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This product may cause harmful interference.
- 2) This product must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this product not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

Note: This product has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This product generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the product off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the distance between the product and receiver.
- Connect the product to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for assistance.

This product is subject to the provision of European Directive 2012/19/EC. The symbol showing a wheeled bin crossed through indicates that the product requires separate refuse collection in the European Union. This applies to the product and all accessories marked with this symbol. Products marked as such may not be discarded with normal domestic waste, but must be taken to a collection point for recycling electrical and electronic devices

PRECAUTIONS

Special reminder: This product is an electronic product. After electrified, the loudspeaker (two horns or one horn, earphone) has some current sound as a normal phenomenon. It is necessary to keep away from these devices, such as radio, routers, TV receivers, refrigerators, washing machines, etc.

Power Supply

This product can be supplied by standard indoor wall socket, please use only the power cord specified by this product. When you do not use, please be sure to turn off the power supply, if you do not use it for a long time, please pull out the power cord and keep it properly.

Sign

In order to ensure that you are safe and correct use of this product, to prevent damage to the user and other people, and to the financial damage, the specification and the product marked with a series of safety signs. All kinds of signs and their meaning.

Warning

This sign indicates that, if you ignore the flag and error operation of this product, there is a potential risk of death or serious injury to personnel.

Attention

This sign indicates that, if you ignore the flag and the wrong operation of this product, there is a potential risk of injury or other financial damage caused by personnel.

Logo example

This triangle mark indicates that the user should pay attention to the matters. (left case is be careful electric shock)

The circular sign painting a slash said prohibited matters. The icon in the logo or next to the specific content of the ban. (left case is no disassemble)

Black dots indicate matters must be complied with. Icon in this sign indicates the specific content that must be followed. (left case is the power plug must be pulled out of the socket)

Warning

Smoke, odor, overheating

When the product is smoking, emitting odors or overheating, it continues to be used to cause fire and electric shock. In the event of such a situation, the following operations shall be carried out immediately.

- 1 Turn off the power supply.
- 2 Pull the plug from the power outlet.
- 3 Contact your agency

Power cord

● Improper use of power supply leads to danger of fire and electric shock Must observe the following precautions.

- Special power lines specified for this product must be used.

- An AC power source with output voltage within the household rated voltage must be used.

- It is not allowed to overload the power socket and the power extension line.

● Improper handling of power lines, resulting in damage or rupture of the fire and the risk of electric shock.

Must observe the following precautions.

- Do not place heavy objects on the power line or make them heated.
- Do not attempt to transform the power cord or bend it too much.
- Do not twist or pull the power cord.
- If the power cord or plug is damaged, replace the power cord of the same type.

● Do not use wet hands to touch the power cord and plug, otherwise there is a risk of electric shock.

● Please use the power cord in the place where the water will not be spilled. Water has the risk of fire and electric shock.

● Never put a vase or any other container with water in this product. Water has the risk of fire and electric shock.

● Do not let the minor contact plug and power line or a connecting plate, Minor knowledge of useless electricity safety causes danger of electric shock.

● Improper use of power supply leads to danger of fire and electric shock. The following matters of attention must be observed.

- Do not place the power cord near the furnace or other heat sources.

- Unplug the power cord from the power outlet. Must grasp the plug body.

- Plug the power cord into the power socket.

- Before connecting or cutting off the power cord, make sure that the power is off.

- The power cord should be removed from the electrical outlet of the wall before a thunderstorm occurs or traveling or before other long leave.

- At least once a year, unplug the power cord from the wall outlet and clean the dust around the plug.

Don't burn this product
