Please use the product according to the intended use, warn of potential injury from misuse.

Not suitable for environments with high humidity, explosive atmospheres, salt spray, acidic or alkaline conditions.

SAVE THIS MANUAL

Each piece of garden stepping stone is equipped with four ground piles
 Garden Stepping Stones *1pcs
 ground pile *4pcs

Ground piles are installed into four square holes

Garden stepping stones can be DIY-placed for use in the garden. The installation ground must be level; overly hard garden ground will prevent inserting the ground piles. When installing, use a rubber mallet to evenly tap the surface until it fits snugly against the ground.

To remove the ground piles, press both sides at the arrow-marked positions simultaneously with a tool, then pull out the piles

Precautions:

- 1.This product is made of engineering plastic materials PC + ABS
- 2.Caution: Slippery when wet
- 3.Not to be used in low temperature, icy or snowy weather to prevent slipping
- 4.Do not jump or stamp violently on it, as it may crack
