Battery Box

Model: BA835

MODEL:BA835

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

	Warning-To reduce the risk of injury, user must read instructions manual carefully.
	This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1)This device may not cause harmful interference, and (2)this device must accept any interference received, including interference that may cause undesired operation.
	This product is subject to the provision of European Directive 2012/19/EC. The symbol showing a wheeled bin crossed through indicates that the product requires separate refuse collection in the European Union. This applies to the product and all accessories marked with this symbol. Products marked as such may not be discarded with normal domestic waste, but must be taken to a collection point for recycling electrical and electronic devices

INSTRUCTIONS

Thank you very much for choosing this battery case Please read all of the instructions before using it.The information will help you achieve the best possible results.

X22

①

Install screws 1-4 as shown in the diagram, and then use the same method to install the other side

②

Adjust the position of the stainless steel plate to ensure that the upper cover can be smoothly closed, and then tighten the screws

③

Install other screws and wire protectors firmly separately

④

The bottom 4 holes have two functions:
a. Install anti slip pads, as shown in the figure
b. Use the 4 screws in Figure 8 to install and fix the battery box

Warning-To reduce the risk of injury, user must read instructions manual carefully. The product complies with relevant standards and regulations. Installation of this device must comply with all applicable regulations, and it should only be operated in well-ventilated areas. Please read the user manual before installing and using this equipment. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children shall not play with the appliance. This appliance shall not be used by children. Keep the appliance and its cord out of reach of children. Please properly keep product. Check whether the product is abnormal before use. If it is abnormal, please stop using it. Please use the product according to the intended use, warn of potential injury from misuse. If a stationary appliance is not fitted with a supply cord and a plug, or with other means for disconnection from the supply mains having a contact separation in all poles that provide full disconnection under overvoltage category III conditions, the instructions shall state that means for disconnection must be incorporated in the fixed wiring in accordance with the wiring rules.

"Safety Warnings

Read this manual carefully before use. Improper operation may cause electric shock, fire, explosion, leakage, corrosion or personal injury.

ELECTRIC SHOCK & HIGH VOLTAGE HAZARD

This equipment presents high voltage risk. Do not disassemble, repair, wire or modify unless you are a qualified professional.

Disconnect all series/parallel circuits and apply insulation protection before installation, maintenance or moving.

The unit must be properly grounded. Do not operate with wet hands.

FIRE AND EXPLOSION RISK

Never reverse polarity, short circuit, overcharge, over-discharge, overcurrent, crush or impact.

Do not use or store near high temperature, direct sunlight, open flames or flammable materials.

Do not disassemble, puncture, heat or dispose of in fire, which may cause explosion or fire.

BATTERY OPERATION RULES

Only use battery packs of same model, same capacity and same batch for series or parallel connection.

Do not mix old and new batteries or different brands, to prevent imbalance, overheating, swelling or leakage.

Install in standard server rack with firm fixation and good ventilation to avoid loose short circuit.

HEAT DISSIPATION & ENVIRONMENT REQUIREMENTS

Keep cooling vents unobstructed. Do not block air passages or use in enclosed, high-temperature or humid areas.

Operate within specified temperature range. Stop immediately if overheating occurs.

LEAKAGE AND CORROSION HAZARD

Stop using and isolate immediately if leakage, odor, deformation, swelling or smoke appears.

Avoid electrolyte contact with skin, eyes or clothing. Flush with plenty of water and seek medical help if contacted.

KEEP CHILDREN AND UNAUTHORIZED PERSONS AWAY

Installation and maintenance only by qualified electricians. No touching, disassembly or moving by children or unqualified personnel.

TRANSPORTATION AND STORAGE

Insulate terminals to prevent short circuit before transportation. Store in dry, cool and ventilated area.

Do not drop, toss, step on or heavily press battery modules.

ABNORMAL CONDITIONS

In case of overheating, odor, swelling, smoke or fire, disconnect power immediately. Use dry powder fire extinguisher. **DO NOT USE WATER."**
