-The product is not a toy, children shall not play with the product.

-Cleaning and user maintenance shall not be made by children without

supervision.

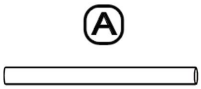

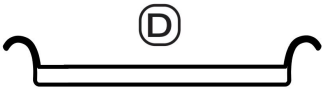

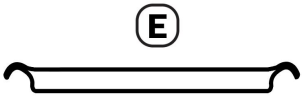

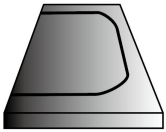

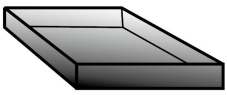

-Avoid injury, children should not play around inside the product or to rely on.

-This product is not recommended during thunderstorms.

-Please properly keep product. Check whether the product is abnormal before use. If it is abnormal, please stop using it.

-Please use the product according to the intended use, warn of potential injury from misuse.

PARTS LIST

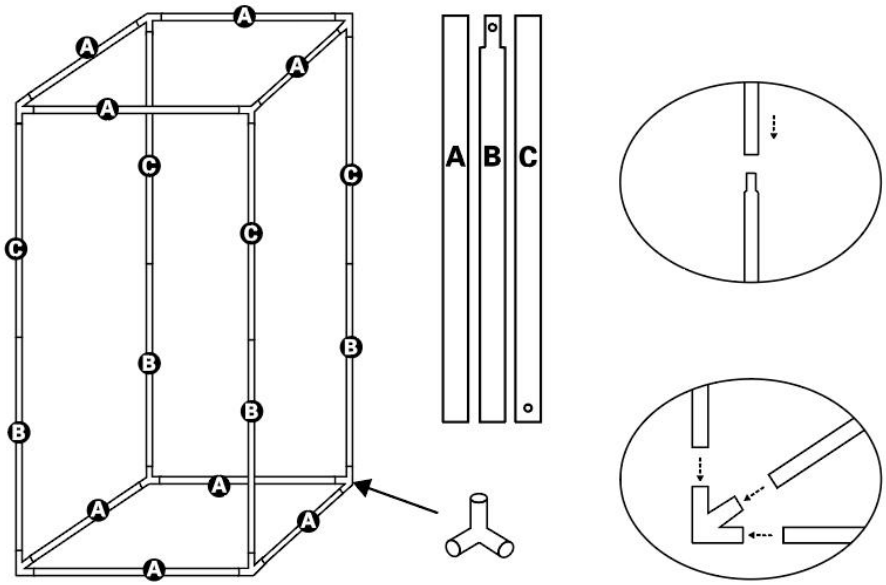

A	 Framework Support X 8	B	 Framework Support X 4
C	 Framework Support X4	D	 Framework Support X1 （Deep）
E	 Framework Support X1 (Shallow)	F	 Tent X 1
G	 Floor Tray X 1	H	 Corner Adapter X 8

I	 Filter Straps X 2	J	 LED Light X 1
K	 Inline Duct Fan X 1	L	 Carbon Filter X 1
M	 Ducting Hose X1	N	 Corner Bracket X2
O	 ThermohygrometerX1	P	 Timers X1
Q	 Clip fan X1	R	 Pruning Shears X1
S	 Goggles X1	T	 Grow Bag X4

U	 Ratchet Ropes X2	V	 Growing Net X1
W	 Aluminum foil tape X1		

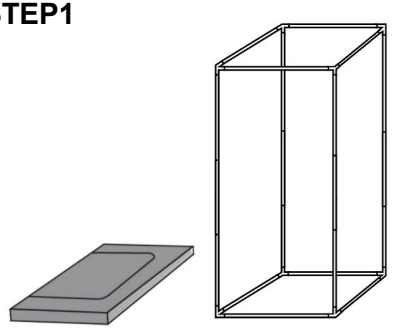

ASSEMBLY STEP

Installation of the Bracket

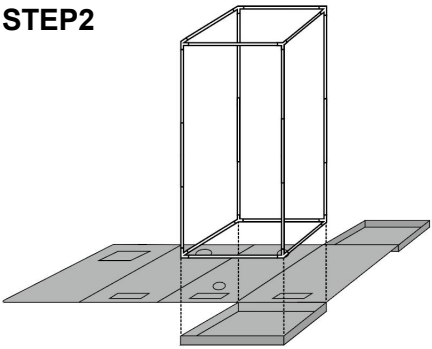

Installation of the Tent

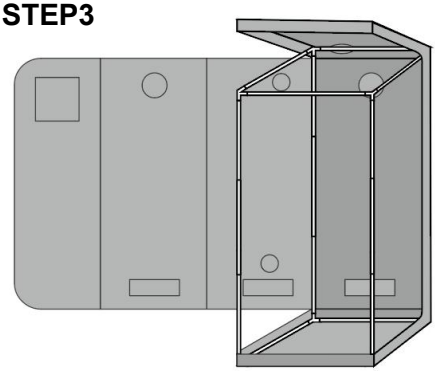

STEP1

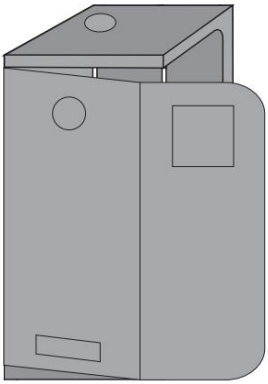

STEP2

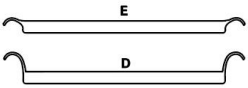

STEP3

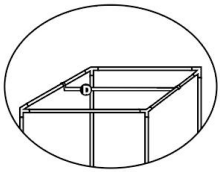

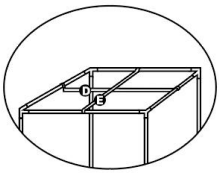

STEP4

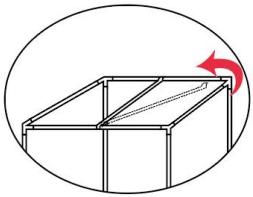

STEP5

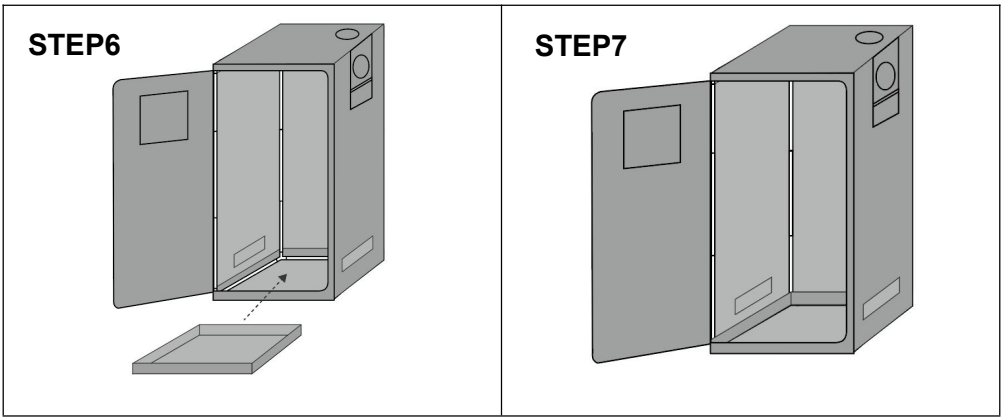

Please slide the hanging bar smoothly, beware of damage the tent skin.

Installation of the accessories			
Part	Grow tent kit tools assembly	Image	Functionality
Inline Duct Fan and Carbon Filter system	Connect a pair of ratchet ropes to the appropriate position. Then fix the filter, inline duct fan and black ducting. Finally, secure vent pipes and fans with clamps.		The inline duct fan, coupled with the carbon filter system, ensures efficient air circulation and purification within the grow tent. This maintains a healthy and balanced atmospheric environment for plants, free from harmful contaminants and unpleasant odors.

Led Light	Unbox the metal hanger kits and attach the 4 small hooks to the 4 holes on the back side of the light. Connect the hooks to the adjustable rope ratchet and hang the light above the plants at an appropriate height. Tips: Pay attention to touch the lamp directly with your hands while it is illuminated to avoid burns.		The Grow Light simulates natural sunlight, providing the necessary light spectrum for photosynthesis and promoting healthy plant growth and development.
Timers	Timer Setting time		The Timer automates the lighting schedule, ensuring that plants receive the precise amount of illumination required for healthy growth and development.
Clip fan	Install the clip fan on the poles according to the user tutorial.		It can be fixed in different places to make the air flow speed faster in specific locations.
Grow Bag	Puting grow bags		Non-woven bag material to improve air permeability and water permeability, providing suitable moisture air and nutrients for roots.

Growing net	Attach hooks to the four corners of the growing net.		The Trellis provides structural support for climbing plants, fostering healthy growth patterns and maximizing the utilization of space within the grow tent.
Woven mesh storage bag	Organizing Products. Place the remaining tools in the tool bag.		Easy access to planting supplies.

TIPS:

1.Please read the instructions carefully in order to assemble the Grow Chamber and avoid excessive force during assembly to avoid damage and light leakage.

2.Children are not allowed to play in, around or through the Grow tent.

3.Do not place Grow tent kits goods in direct sunlight, near an open fireplace or heat source.

4.Be very careful when carrying sharp objects in or around the Grow tent.

5.Do not touch the grow light directly with your hands when it is working to avoid burns.

6.Fan studio, please don't stick your hand into the fan to avoid injury.

Incorrect operation

Correct operation

If light leakage occurs in a dark environment, smooth out the light barrier at the inner zipper of the tent to improve the light blocking effect.
