This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

WARNING:

Please read this manual carefully before using the product. Failure to do so may result in serious injury.

1. Do not use fingers or hard objects to touch the screen surface. Do not splash milk, fruit juice or other chemical doses to the screen surface. Keep the screen far away from high temperature objects or fire.
2. If the screen is dirty, wash it gently with a clean cloth or a cotton ball. Do not use organic solvents to clean the screen surface.
3. Avoid strong squeezing as much as possible.
4. Avoid storing in a cool and humid place, try to keep it dry.
5. Keep ventilated and stay away from fire4. Keep the inflation fan on when using it.
6. Do not unplug or turn off the blower while the screen is in use.
7. Due to the product's design, the blower emits a normal sound of around 70db during operation, which does not affect safety. Feel free to use it with confidence.
8. The product complies with relevant standards and regulations. Installation of this device must comply with all applicable regulations, and it should only be operated in well-ventilated areas. Please read the user manual before installing and using this equipment.
9. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
10. Children shall not play with the appliance.
11. This appliance shall not be used by children. Keep the appliance and its cord out of reach of children.
12. The product can only be used outdoors. Pay attention to using it on a flat platform without sharp and hard objects.
13. Please properly keep product. Check whether the product is abnormal before use. If it is abnormal, please stop using it.
14. Please use the product according to the intended use, warn of potential injury from misuse

Note:

1. The blower must run continuously to keep the screen inflated. Its noise level is similar to that of a regular fan. To reduce noise disturbance, place the blower behind the screen and use external speakers. Depending on the product model, the blower may be equipped with a power switch. Please ensure it is turned on before use.
2. The screen may have slight creases due to folded packaging. It is installed separately and will become smooth and taut once tensioned, with no negative impact on projection quality. For better flatness, gently steam the screen with a garment steamer before use.
3. The set includes ground stakes and guy ropes to secure the four corners. It remains stable under normal weather conditions. For safety, outdoor use is not recommended in winds exceeding Level 3.
4. In the event of damage or air leakage, you may use the included repair kit to fix the screen frame.
5. The product complies with relevant standards and regulations. Installation of this device must comply with all applicable regulations, and it should only be operated in well-ventilated areas. Please read the user manual before installing and using this equipment.
6. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
7. Children shall not play with the appliance.
8. This appliance shall not be used by children. Keep the appliance and its cord out of reach of children.
9. Please properly keep product. Check whether the product is abnormal before use. If it is abnormal, please stop using it.
10. Please use the product according to the intended use, warn of potential injury from misuse.
11. If the supply cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or its service agent.

PACKAGE CONTENTS

Storage Bag*1

Projection Screen*1

Frame*1

Iron Stakes*6

Strong Ropes*4

Blower*1

(The SW-PJ-14FT-120W blower is built into the product)

Patching kit*1

ASSEMBLY STEPS

STEP 1

Lay out frame, close deflation zipper and attach to the blower.

STEP 2

Turn on the blower, inflate in 2 minutes.

STEP 3

Attach the white screen to the black frame.

STEP 4

Let it stand up, attach the wind cord.

DEFLATE AND STORE

STEP1

The blower stops running, and the zipper is opened to release air.

STEP2

Flatten the screen with white movie screen cloth up to avoid dirtying the screen.

STEP3

Fold in half 3 times vertically.

STEP4

Place in carry bag

Correct Disposal:

This product is subject to the provision of European Directive 2012/19/EU. The symbol showing a wheelie bin crossed through indicates that the product requires separate refuse collection in the European Union. This applies to the product and all accessories marked with this symbol. Products marked as such may not be discarded with normal domestic waste, but must be taken to a collection point for recycling.

electrical and electronic devices.

FCC Information:

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment!

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This product may cause harmful interference.
- 2) This product must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this product not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

Note: This product has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This product generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the product off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the distance between the product and receiver.
- Connect the product to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for assistance.
