This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

## SAFETY INSTRUCTIONS

### **WARNING:**

**Before installation, please ensure that your TV stand mounting holes, dimensions, and weight can meet the specifications and standards of the TV stand. If you have any questions or questions about the instructions and warnings, please contact us for help..**

### **Important:**

1. When installing the support, please use professional safety devices and tools in accordance with the requirements of the assembly instructions. Improper installation may cause the TV to fall or serious injury.
2. Before installation, ensure that the support surface can safely support the weight of the device and all accessories.
3. Please do not exceed the intended load capacity, otherwise it may cause serious injury or property damage.
4. This product contains small parts, swallowing them may cause choking hazards. Please keep out of reach of children.
5. This product is only suitable for indoor use, outdoor use may cause product damage and personal injury risk.

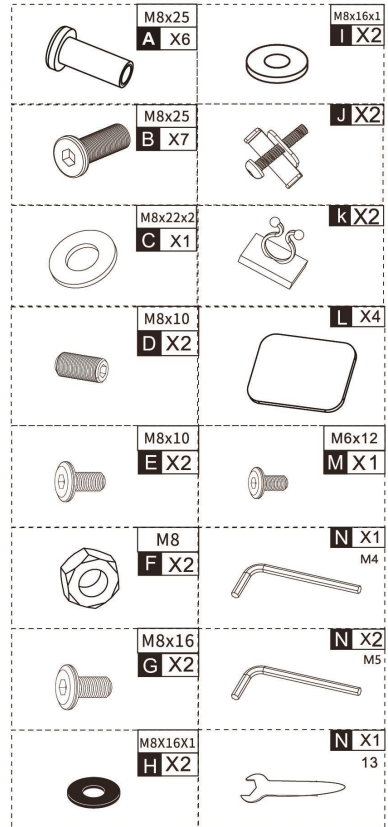

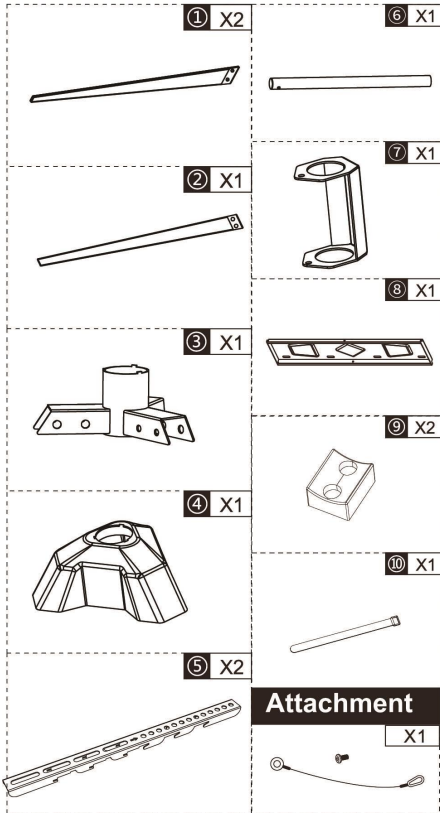

### **Maintenance:**

Please check the connection between the bracket and the TV periodically to ensure it remains stable, and verify that the screws have not loosened or fallen off due to long-term use (at least once every three months). If any security risks are identified, replace or reinforce the parts promptly.

### Announcements

\*Please install wires on walls with sufficient strength to prevent falls. If the strength is too weak, it will not prevent falls.

\*Depending on the material of the wall, different screws can be used. Please purchase screws after consulting at a home center.

\*Wall - mounting screws are not included with this product.

\*Please do not let the wire slack the setting. In the relaxed state of the steel wire, it will be subjected to excessive impact when falling, resulting in damage to the steel wire and the risk of falling.
